

Investment and pension scams are often sophisticated and difficult to spot

Be a ScamSmart investor and spot the warning signs

Fraudsters will often:

- contact you out of the blue
- apply pressure to invest quickly
- downplay the risks to your money
- promise tempting returns that sound too good to be true
- say that they're only making the offer available to you or even ask you to not tell anyone else about it

How to avoid investment and pension scams

1 **Reject unexpected offers**

Scammers usually cold call, but contact can also come by email, post, word of mouth or at a seminar. If you've been offered an investment out of the blue, chances are it's a high risk investment or a scam.

2 **Check the FCA Warning List**

Use the FCA Warning List to check the risks of a potential investment – you can also search to see if the firm is known to be operating without our authorisation.

3 **Get impartial advice**

Get impartial advice before investing – don't use an adviser from the firm that contacted you.

If you're suspicious, report it
